

How to select the probe

Plastic pH probe pH-5019

• Technical parameters

Measure Range: 0-14pH Temperature Range: 0-60°C

Material: PS

Cable length: 5m/10m/15m

Tread Type: 3/4NPT

≥60°C

Strong acid and alkaline Biotechnology, sterilization process

Recommended Application
Drinking water monitoring and treatment
Swimming pools
Aquariums(also marine aquariums)
Lightly polluted service water
Process water and wastewater
Rainwater, pond water and surface water
