

Plastic ORP probe

ORP-6040

- Technical parameters

Measure Range: -1000~+1000Mv

Temperature Range: 0-60°C

Material: PS

Cable length: 5m/10m/15m

Tread Type: 3/4NPT

- Not recommended:

≥60°C

Strong acid and alkaline Biotechnology,
sterilization process

- Recommended Application Drinking

water monitoring and treatment

Swimming pools

Aquariums(also marine aquariums)

Lightly polluted service water

Process water and wastewater

Rainwater,pond water and surface water
